

Notice to All Our Valued Customers.

HVT have been put in a most regrettable position where the company has been forced to disrupt its business operations for a period to relocate to new premises.

This disruption has been brought about by our landlord selling the property housing the HVT factory to developers which will result in our premises being demolished.

While this comes as short notice to us, we were under the impression we had more time to relocate but we have been given hostile notice we need to start relocating by 11/01/2023.

We are pleased to advise we have secured a new factory at 19 Malcolm Rd, Maddington but due to construction of new HVOF and Thermal Arc spray rooms, there may be up to 8-week period before we can resume our HVOF process.

While this is not a desirable position to be in, we are very mindful of the inconvenience this will cause you over this period.

We thank you for your valued support and understanding and assure you HVT will soon be fully operational with a new look and enhanced services to better service your requirements.

We will provide regular updates during our transition and look forward to meeting at our forthcoming relocation celebrations.

If you have any queries, please do not hesitate to contact Robert Harris on 0408 007 818, or Roger Henley on 0429 441 194.

Thanks, and regards

Kevin Harris

Director.
